CERTIFICATIONS

   ➢ Full Stack Python Developer.
   ➢ GitHub training.
   ➢ Six Sigma Yellow Belt.

PROJECTS

❖ **Careermitra job portal website using Django, MySQL, HTML, CSS, JavaScript and Bootstrap.**
  ➢ Developed a Dynamic job portal website. 'Careermitra' is fully Responsive Job Board website created using Django framework, HTML, CSS JavaScript. Carriermitra has a complete solution for job portal, career, resume, directory, freelancer, employer, job listing, blogs, user pages, and portfolio

❖ **Dnyanmandir Library Management System Using Django Framework, SQLite.**
  ➢ Developed a Webapp which provide complete solution for Library management system in which Student can do registration, login and issue book. Where admin can perform login, CRUD Operation, add books, issued book and if late can charge money to student.

❖ **Travel and Tourism website using Django, HTML, CSS, JavaScript.**
  ➢ My project is an online tour and travel system that provides an effective solution for users to plan, manage and schedule their tour according to their requirements and demands. Often people get confused while planning for a tour. This system solves all problems of the client by providing them different packages and facility to personalize their tour. The most important part of the online travel agency project is its tour packages and customization. The database consists of a list of tours and their packages. The system promises to build 3 different areas for demonstrating its functionality appropriately.
  ➢ Our proposed system will consist of a user registration and login module for new users to register and login to the system. The user may then view various tours available. Each tour consists of three kinds of packages that includes economic, semi deluxe and deluxe for stay, food and travelling. Users may choose the destination and package as and when needed.

❖ **Portfolio website using HTML, CSS, JS, Bootstrap.**
  ➢ I have created a Dynamic Portfolio website using HTML, CSS, JavaScript, Bootstrap and little bit JQuery. I have made this project step by step with so much of new experiment in this project. Like position elements in the header, uses of utility classes, use CSS variables, use CSS flexbox for creating awesome layouts like this one, various google fonts with Hover effects, Slick sliders etc.

TECHNICAL SKILLS

- **Programming Languages :** Python, C, C++.
- **Web Designing :** HTML, CSS, JavaScript, Bootstrap.
- **Frameworks :** Django, Tkinter GUI.
- **Database**: MySQL, Oracle SQL RDBMS, SQLite.
- **Operating Systems :** Windows 7, Windows 10, Linux.
- **Tools:** PyCharm, Anaconda, GitHub, Adobe XD, Visual Studio 2022, VS code, Oracle SQL, virtual Box, Ubuntu.

STRENGTH

  ➢ Problem Solving, Mathematical aptitude, Quick learner, Analytical thinking.

ACTIVITIES

  ➢ Co-coordinator in "TECHTONIC FEST "Held by Sinhgad Institute.
  ➢ Participated in "ROBOTICS COMPETITION" Held by Sinhgad Institute.

DECLARATION

I hereby declare that the information given above is true and the best of my knowledge.
